

Pro Sport Inflatables

The Pro Sport range is designed for fishing & diving, to provide a safe, stable platform while cruising or anchored in your favourite spot.

Rigid hull inflatables are the ‘boat of choice’ for many fishers and divers because of their speed, economy and unparalleled stability and ease of exit and re-entry on the water.

The Aquatx Pro Sport range has been designed to meet the needs of day trip fishing & diving. The Pro Sport range is available with standard outboard power or with Aquatx jet power options.

Available in 4.7m and 5.3m lengths, the 4mm marine grade aluminium, with a deep vee high performance hull, provides ruggedness and great handling in off-shore waters. The 500mm multi-compartment polyurethane tubes mean high levels of safety, stability and durability.

Pro Sport

Length	Beam	Tube Diameter	Beam (Internal)	Weight	Pax	Max HP
4.7m	2100mm	500mm	1100mm	170kg	5	60
5.3m	2100mm	500mm	1100mm	210kg	7	90

The standard Pro Sport model comes with the sporty two seater centre console with windscreen and sports steering wheel and helm fitted out with the fish/dive base package: a heavy duty anchor sprit complete with bollard and fairlead; spray dodger; washable carpet floor; internal and external safety ropes and a rear seat with huge storage underneath. The welded outboard motor pod means maximum interior room.

The Pro Sport can be configured with the Deluxe Seating package.

You choose the features to customise the Pro Sport to meet your particular sports fishing requirements including: integrated dive bottle holders covered by a huge bow seat; stand up console with ‘T’ top bimini; upholstered seat/fish bin; rocket launcher tower; fixed bait board; ladder; fold back bimini sun top; music system; navigation and working lights.
